# Why CCS Media?

As one of Microsoft's chosen strategic partners, CCS Media is the UK's leading provider of collaborative workspaces, bringing its unrivalled expertise in AV integration and collaborative workspaces to ensure customers make the most out of their Surface Hub deployment.

From design, implementation and support, CCS Media provides an end-to-end solution that is aligned to your specific needs to help your business to unlock the power of the group.

Surface Hub is the powerful team collaboration solution designed to advance the way people work together to engage, visualise and empower.

## Built for Teamwork

With its wide angle high definition cameras, infrared presence sensors and high performance microphones combined with an ultra-responsive, no lag multitouch HD screen, the Surface Hub is built for teamwork.

The fully integrated design and choice of two screen sizes (55"/84"), means there's a solution for your needs.

Responsive digital inking helps teams create ideas, resolve problems and collaborate in real time with efficiency only dreamed about previously.

### Let's talk [Call 01246 200 200](tel:01246200200)

Find more about Surface Hub and how it could add value in your meeting rooms.

## Benefits

### Create and Brainstorm

Share your ideas and bring teams together in a way that feels completely natural, with technology that doesn't intrude, but helps ideas flow.

### Engaging and Productive Meetings

Walk up and join a Skype for Business meeting with a single tap, and share content effortlessly.

# Key Features

Whether 84" or 55", Microsoft Surface Hub offers a responsive and natural linking experience, advances touch capabilities, Windows 10 and Microsoft Office, including Skype for Business and PowerPoint.

## Microsoft Office Apps

Compatibility with Microsoft Office apps such as Word, Excel, and PowerPoint, as well as OneNote and Skype for Business.

## Interactive

Interactive whiteboard with digital collaboration tools.

## Windows 10

A Windows 10 experience tailored for group use, with ink and touch at its core.

## Personal Sharing

The ability to share any Windows application from personal devices to Surface Hub.

## Perfect Technology

Surface Hub is perfect as the central part of any collaborative communications solution. Its feature-rich facilities are also perfect for enhanced video communications.

Raised levels of engagement mean important strategies and critical decisions can be made faster. Join a Skype for Business meeting with a single tap and share content effortlessly, spending your time connecting with people rather than technology. Send meeting notes and content to easily communicate outcomes and action points.

## Collaboration

The Microsoft Surface Hub is the catalyst in helping organisations and businesses revolutionise the meeting experience and unlock the power of group collaboration delivering strategic and agile business solutions.

By transforming meeting spaces and huddle rooms into true, multipurpose walk-up and work collaboration environments, organisations can achieve new levels of efficiency, creativity, productivity and security.

## Security

The Surface Hub has been shown to help with information security. Meeting outputs can be saved to all participants at the swipe of a finger and are erased from the device once the meeting is over.

Book a comprehensive Surface Hub demo

### Large-Screen Apps

In addition to the built in team experiences Surface Hub is customisable with a wide array of universal apps built for Windows 10, you can also connect apps from your personal device.

### Modern Workplace

Designed to be easy to deploy and manage remotely, the Microsoft Surface Hub integrates beautifully into the modern workplace, enabling productivity in any space.
