

# There's a Surface device for everyone in your Hybrid Workforce

## We'll help you match them

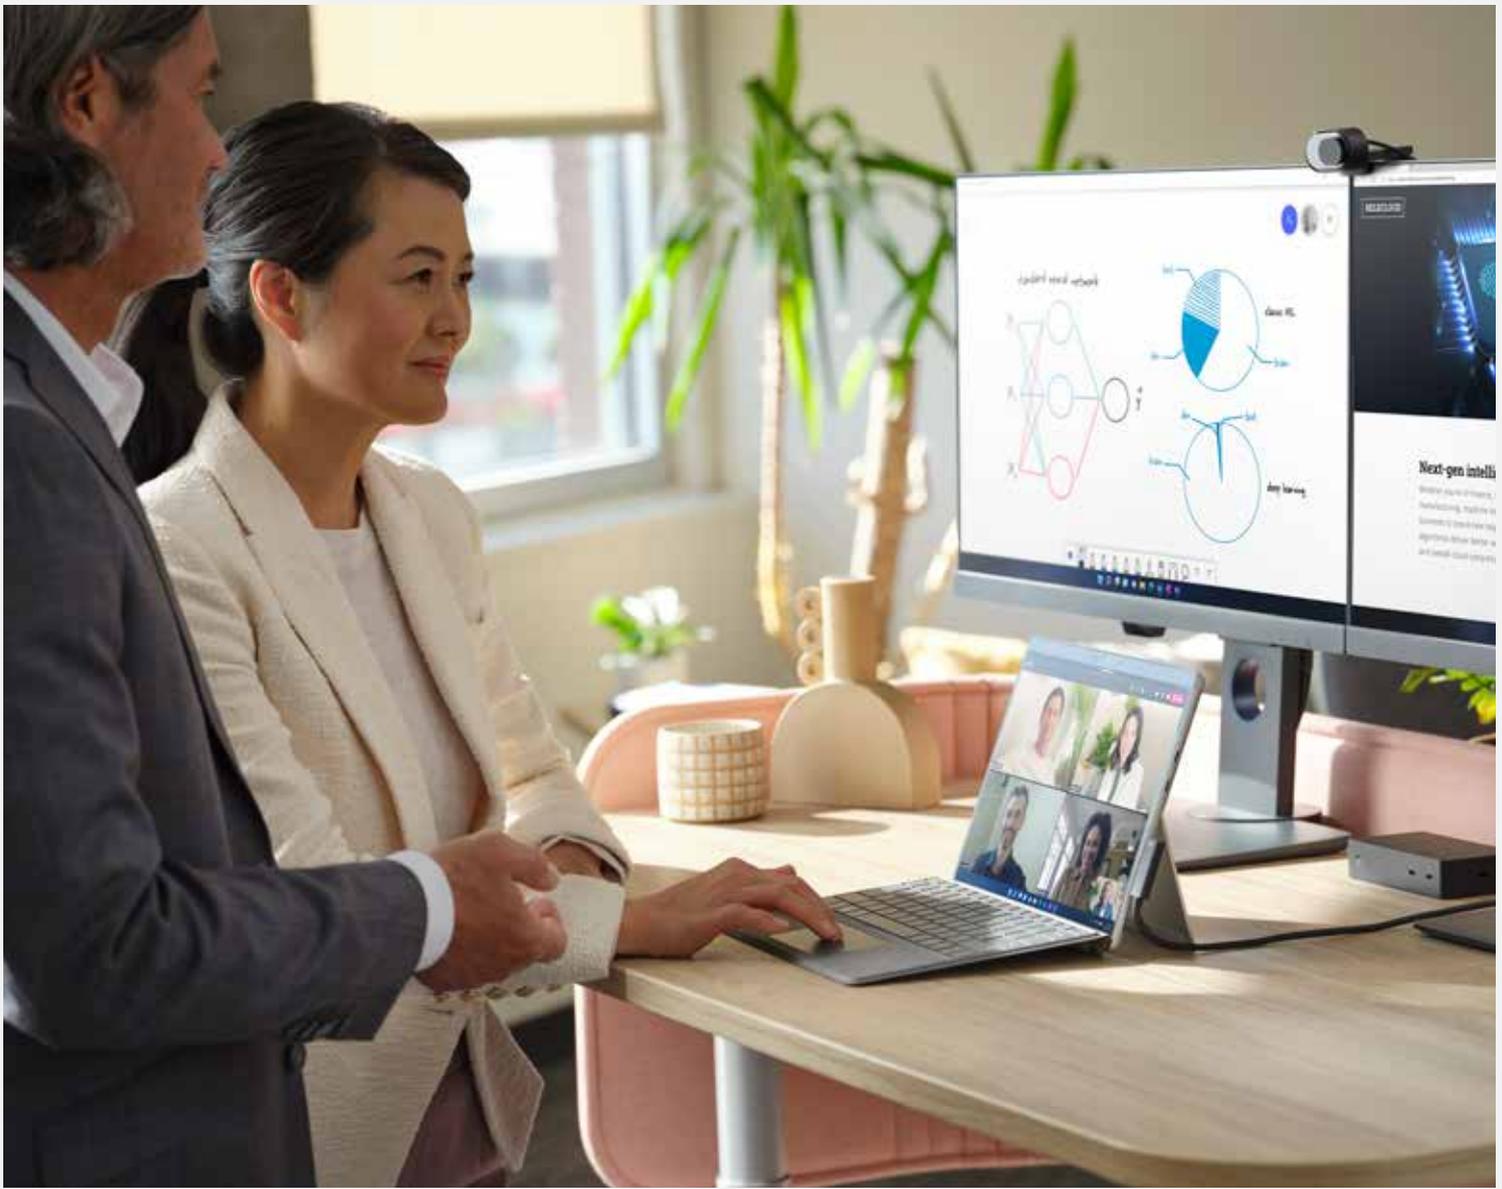

As the ways we work change, the need for always-connected devices increases. The Microsoft Surface range responds to this, offering a comprehensive range of ultra-lightweight, compact and versatile devices with 5G and 4G LTE connectivity. The entire range is optimised for Microsoft's leading solutions, including Microsoft 365 productivity and collaboration tools and Microsoft Dynamics 365, keeping users productive on the go with no loss of security.

As the national economy continues to get back on track since the start of the pandemic, now is the time to take advantage of the always on Microsoft Surface range of devices that can meet the rapidly-changing demands brought on by the wholesale shift to Hybrid Working.

Each workplace is different, which is why we have assembled a strong portfolio that includes four devices to meet new workplace challenges. Although each device delivers on different business needs for employee roles, they all provide the right mobility tools that enable them to work flexibly and remotely with instant connectivity virtually everywhere they go. To enhance workflow and productivity, they offer a seamless transition when moving between office and offsite. For peace of mind, each device has built-in security to protect business data when employees are in remote locations through secure connections and biometric authentication.

Now see what works best for your people.

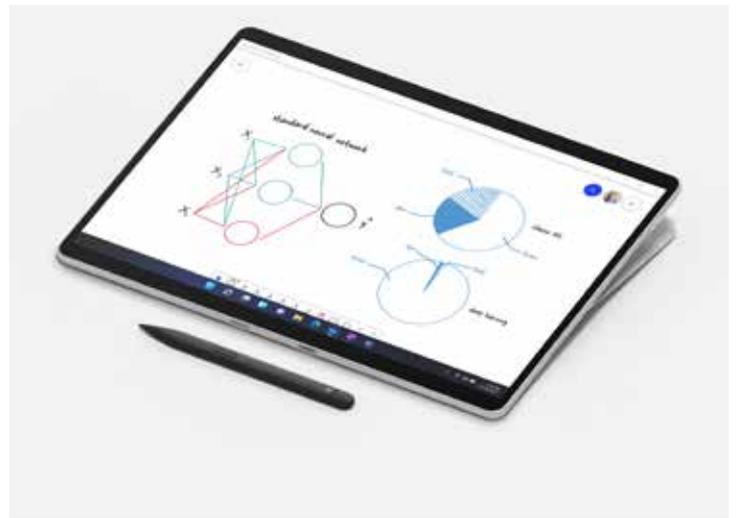

## Business leaders

As leaders focus on setting up their business and people for future success, it's vital they have powerful devices that keep them seamlessly and safely connected when they are away from the office. This includes the need for leading, built-in security features that not only protect others from accessing the information on the device but also the data that is shared over the device's secure mobile connection.

Being constantly and securely connected is paramount to keep business moving whether travelling abroad, working in transit or visiting customers on-site. Having the most professional looking, easy to carry devices that display their content in the best possible light is also essential when it comes to creating and converting opportunities.

## Surface Pro 8

A stylish, professional looking device that provides the connectivity and security business leaders demand. The Pro 8 is an ultra-light 2-in-1 device that features longer battery life<sup>1</sup> and our most advanced Pro display for touch and pen use. It allows you to seamlessly transition from a fully powered laptop to a tablet and back again helping to improve your productivity from anywhere.

### Accessories

A selection of perfectly matched accessories to help leaders enhance the functionality of a Pro 8 whether you're at your desk or on the go.

- **Type Cover** makes typing easy while adding screen protection.
- **Slim Pen 2** unlocks a new way of capturing thoughts, collaborating with others whilst allowing you to go paperless.
- **Dock 2** features 7 ports to maximise maximize efficiency at the office, in a flexible workspace, or at home.
- **Headphones 2+** provides comfortable, crystal-clear sound quality and active noise cancellation<sup>2</sup>
- **Modern USB-C Speaker** designed specifically to give you the best possible Microsoft Teams experience.
- **Adaptive Kit** enabling greater accessibility for everyone.

# Managers

Managers who can successfully juggle multiple people, processes and projects have become an increasingly valuable asset for today's hybrid organisations. They are the key to enhancing productivity across their teams who are often in different locations and time zones. They depend on fast, reliable technology to ensure they can coordinate their teams from almost anywhere, allowing them to access data, process information, collaborate and deliver work effectively.

## Surface Pro 8

A versatile business device that adapts to how managers work, wherever they work. The Pro 8 is an ultra-light 2-in-1 device that features longer battery life<sup>1</sup>, keeping your managers connected with their teams for longer. The 2-in-1 format allows you to seamlessly transition from a fully powered laptop to a tablet and back again helping to improve your efficiency wherever you work.

### Accessories

These accessories will assist managers to boost their own productivity when using Pro 8 while enhancing communication with their team.

- **Type Cover** makes typing easy while adding screen protection.
- **Slim Pen 2** unlocks a new way of capturing thoughts, collaborating with others whilst allowing you to go paperless.
- **USB-C Travel Hub** provides a full office network and display connection experience with 5 ways to connect.
- **Modern Wireless Headset** designed specifically to give you the best possible Microsoft Teams experience.
- **Arc Mouse** is perfect for travel as it conforms to the shape of the hand yet snaps flat to fit easily in a bag.
- **Adaptive Kit** enabling greater accessibility for everyone.

## Surface Duo 2

Two beautiful, high-resolution 5.8" PixelSense™ Fusion touch displays are now larger, opening to a brighter, more generous 8.3" view. Switching seamlessly between multiple modes thanks to the hinge, Duo 2 gives you a tablet experience on a fully featured smartphone.

### Accessories

Must have accessories for Duo 2 to enhance multi-tasking and team communication.

- **Duo 2 Pen Cover** helps protect the device when traveling while magnetically storing and charging your Slim Pen 2.
- **Slim Pen 2** unlocks a new way of capturing thoughts, collaborating with others whilst allowing you to go paperless.
- **Surface Earbuds** are perfectly pocketable and offer an ultra-comfortable design, immersive sound and all-day battery.

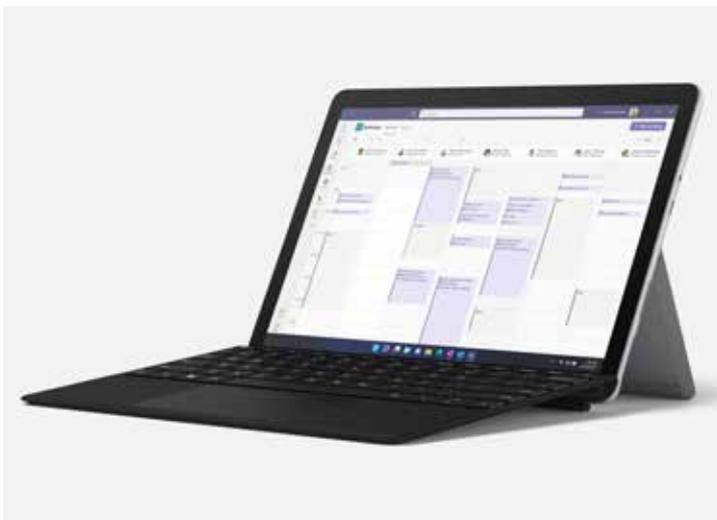

## Mobile and Frontline Workers

If mobile workers are to consistently meet increasing customer expectations for lightning-fast resolutions and greater transparency, they must be able to share information in real-time and be connected to their support teams back at the office. The need for the seamless flow of data is nowhere more pronounced than for workers out in the field. Cloud-enabled business applications on always connected Surface devices can maximise efficiencies for mobile workers while speeding up resolutions.

## Surface Go 3

A portable and flexible 2-in-1 device with all day battery life<sup>1</sup>, plus fast charging, it's designed for users who are always on the go. Go 3 users on the frontline can use it as a tablet to enhance customer interactions, supported by a consistent link to colleagues via Teams to solve queries efficiently.

### Accessories

A vital range of protective and mobility enhancing accessories that will help workers stay mobile and connected while protecting their Go 3 when on the move.

- **UAG Rugged Case** gives your Go 3 that extra level of protection wherever it needs to go.
- **Business Pen** attached to the device, or carried on a lanyard, this lets users update notes and capture thoughts naturally without the need for paper.
- **Modern USB-C Headset** designed specifically to give you the best possible Microsoft Teams experience.
- **USB-C Travel Hub** provides a full office network and display connection experience with 5 ways to connect.
- **Type Cover** makes typing easy while adding screen protection when you need a keyboard on the move.
- **Mobile Mouse** is light with seamless scrolling and cord-free Bluetooth connectivity.

## Premium Frontline Workers

Frontline workers are often in high-pressure roles that have important outcomes – they simply cannot afford disruptions or complications, technological or otherwise. They need to stay connected when moving between sites and find ways to make workloads more manageable. Using premium, innovative devices not only helps with individual productivity, but it also inspires confidence among clients and customers they meet.

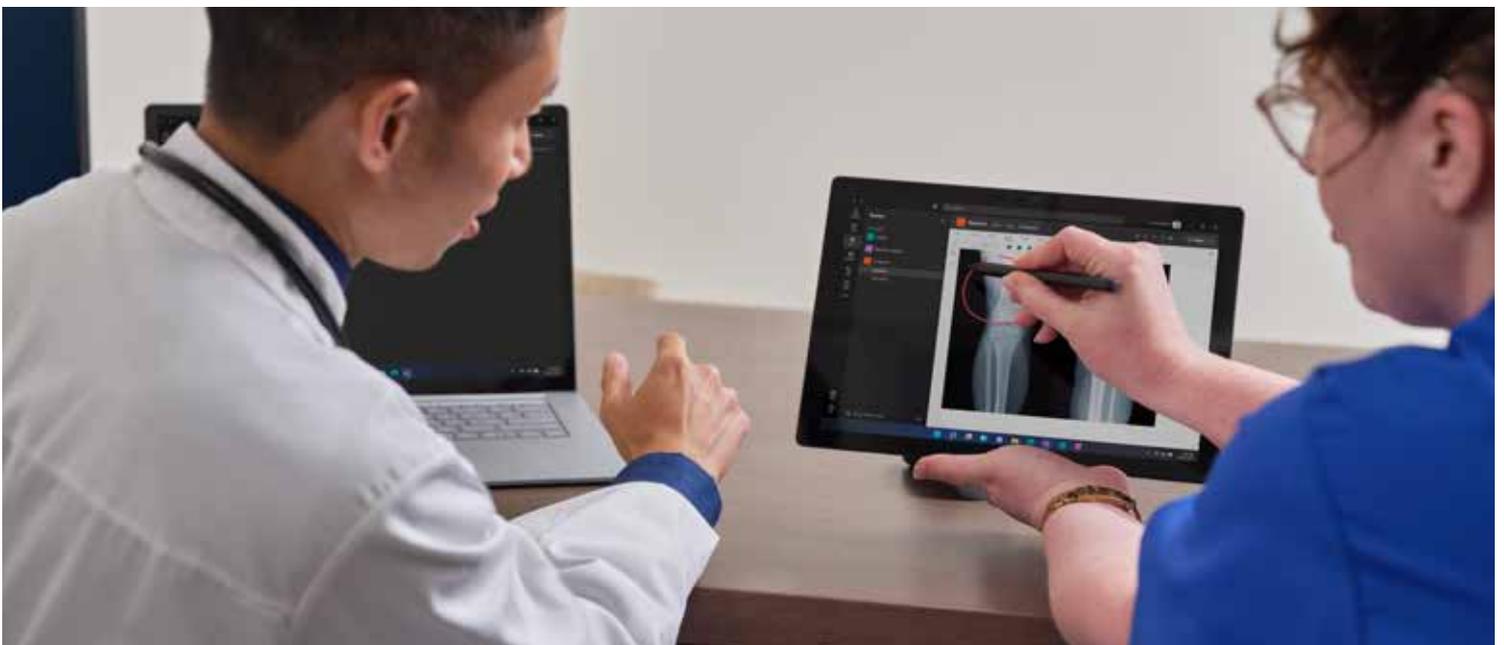

# Surface Pro X

Thin, light and designed to impress, the powerful Pro X provides high levels of reliability and security. It offers constant connectivity and all-day battery life, so the device is a valuable tool for consultations, case reviews and data sharing, wherever they take place.

## Accessories

Once frontline workers have finished in the field with clients, these Pro X accessories turn their versatile tablet into a fully-equipped desktop experience.

- **Type Cover** full-sized keyboard turns Pro X into a full laptop experience.
- **Slim Pen 2** unlocks a new way of capturing thoughts, collaborating with clients and colleagues whilst allowing you to go paperless.
- **USB-C Travel Hub** provides a full office network and display connection experience with 5 ways to connect.
- **Arc Mouse** is perfect for travel as it conforms to the shape of the hand yet snaps flat to fit easily in a bag.

The Microsoft Surface range of connected devices provides your business with the key productivity, mobility and security tools required to thrive in the new Hybrid Working age.

1. Battery life varies significantly based on usage, network and feature configuration, signal strength, settings and other factors. See [aka.ms/SurfaceBatteryPerformance](https://aka.ms/SurfaceBatteryPerformance) for details.

2. Voice calling testing conducted by Microsoft in Feb 2021 using pre-release Surface Headphones + Dongle package with pre-release software. The dongle was plugged into Surface Laptop 3. Volume was set to 52% with maximum noise cancellation. Bluetooth Hands-Free profile was used. Testing consisted of full Surface Headphones battery discharge with a Microsoft Teams call until the Surface Headphones disconnected from the host device. Battery life depends on device settings, environment, usage and many other factors.
