

Microsoft Teams Rapid Deployment Services

Organisations are faced with an unprecedented need to quickly enable home and flexible working for employees

One of the quickest ways to achieve this is through Microsoft Teams – the secure enterprise cloud collaboration platform that:

Enables users to collaborate from any location using corporate devices, home computers or smart-phones.

Empowers employees to make calls, hold video conferences and collaborate on documents with their colleagues.

Enables communication with all employees through a variety of alerts and notifications including hosting all company meetings using Live Events.

Ask your Account Manager about a free 6-month Office 365 E1 Trial, including Microsoft Teams

Call: 01246 200200 or e: letstalk@ccsmedia.com
