

Stronger Together

5 Ways Poly and HP Simplify Hybrid Work

Hybrid work environments are complex. But the union of HP and Poly will simplify things with a complete ecosystem of communication, collaboration, productivity, security, and management solutions designed to be easy to provision, manage, and support.

1. One Place For All Your Hybrid Work Needs

Our broad portfolio will let you find the best solutions for each individual and space in your organisation — from PCs to intelligent video conferencing and pro-grade headsets — with the simplicity of using a single trusted vendor.

2. Innovation That Optimises Collaboration

The combined strengths of two companies known for innovation in collaboration lets you create engaging work experiences that make everyone feel like they're together in one place.

3. Interoperability With Hybrid Work Platforms

Strategic relationships and deep integration with leading hybrid work platforms provides seamless deployment and end-user experiences.

4. Expert help for hybrid workers around the world

Take advantage of experts who leverage decades of experience supporting IT in almost every country to advise on all aspects of your hybrid work environment.

5. Solutions Good For Your Business And The Planet

We're combatting climate change, protecting human rights, and accelerating digital equity so you can work smart while protecting the planet.
